Glenside, PA 19038

Dear Ms. Ewing:

On behalf of the Camden Empowerment Zone Corporation (CEZC), I thank you and your staff for participating in the CEZC's 2009 Technical Assistance Project (TAP). As you are aware, the TAP program is designed to provide capacity building and professional development training to Camden based nonprofit organizations. Your participation provided eleven nonprofit organizations with hands on techniques to increase their overall effectiveness in the areas of Strategic Planning, Resource Development, Fiscal Management and Board Development, which will lead to more effective leadership and increased organizational capacities and sustainability.

Thank you again for your hard work and enthusiasm. Your support helped us empower eleven organizations that provide essential services to the City of Camden and its residents. I look forward to continuing our partnership and working with you in the future.

Sincerely,

Tyshammie L. Cooper-Delisle
Chief Executive Officer
